3.2.1: The institution has created an ecosystem for innovations, the Indian Knowledge System (IKS), including awareness about IPR, establishment of an IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

Nimra College of Pharmacy believes that research and education go hand in hand. Therefore, we built an innovation ecosystem by involving the staff and students in research-related activities and initiatives for the creation & transfer of knowledge. All the doctorate and senior faculties have a free hand to encourage the student to think novel and utilize their skills for research activities. The institute also encourages faculty to improve their skills, and knowledge and pursue doctoral degrees in different universities. The management is continuously cooperative in terms of offering financial support and encouraging the achievement of research. We are encouraging the students by

- Build a research community
- Encourage a diverse group of students to participate
- Building literacy skills for research
- Conducting seminars, workshops and conferences regularly on campus.
- Classes conducted for Intellectual property rights.
- To improve the Entrepreneurship skills of students.
- Focus on women's Entrepreneurship and its importance.

The institution has set up a research and development cell and encourages students to develop a thirst for innovation. The institute promotes the faculty to visit and work in various national and international research organisations on duty. Encourage students to involve in different co-curricular activities like attending seminars and conferences at the state and national levels. The whole campus is provided with Wi-Fi enabled to execute the research activity without the disrupt. The labs are well equipped with sophisticated laboratory with instruments like High-Performance Liquid Chromatography (HPLC), UV-Visible Spectrophotometer, Rotary evaporator, tablet compression machine, dissolution apparatus, Flame photometer, Stability chamber, etc and hands-on training has been provided.

Committee to implement and monitor R & D Activity: It is established on the campus for providing a platform for the students and faculties to share their ideas and seek clarifications from experts.

The main objectives of the committee are

- To provide knowledge about various external funding agencies for faculty and students projects by facilitating regular interaction among students, startup promoters, officials, executives, and other stakeholders.
- The college has signed a memorandum of understanding (MoU) with various institutions and industries.
- To encourage faculty and students for filing patents.
- To encourage the student to participate in the seminar, conferences and workshops conducted by other colleges/ universities and industries.
- The committee insists the faculty and students publish their research work in reputed journals with high impact factors.
- The guest lectures are arranged for the benefit of the students and faculties.
