REPORT

Date: 25.06.2022

Name of the Event: YOGA DAY

Type of the Event: PHYSICAL, MENTAL & SPIRITUAL PRACTICES

Date of the Event: 21.06.2022

Description:

International yoga day has been celebrated across the world annually June 21st since 2015. Our institution conducted yoga day on **21.06.2022** by **K.V. Rama Krishna-CHIEF DIRECTOR OF VIVEKANANDA YOGA KENDRA.**

The international yoga day aims to raise awareness of practicing yoga. We conducted the yoga day to give knowledge about yoga to students. Yoga is an ancient physical, mental & spiritual practice that originated in India. The word “yoga” was derived from Sanskrit & means to join / to unite. By practicing yoga regularly, we can feel better from head to toe.

Yoga offers physical & mental health benefits for people of all ages. Yoga improves strength, balance, flexibility; it helps to relieve back pain & helps to sleep better. According to the National Institutes of Health, scientific evidence shows that yoga supports stress management, mental health, mindfulness, healthy eating, weight loss and quality sleep.

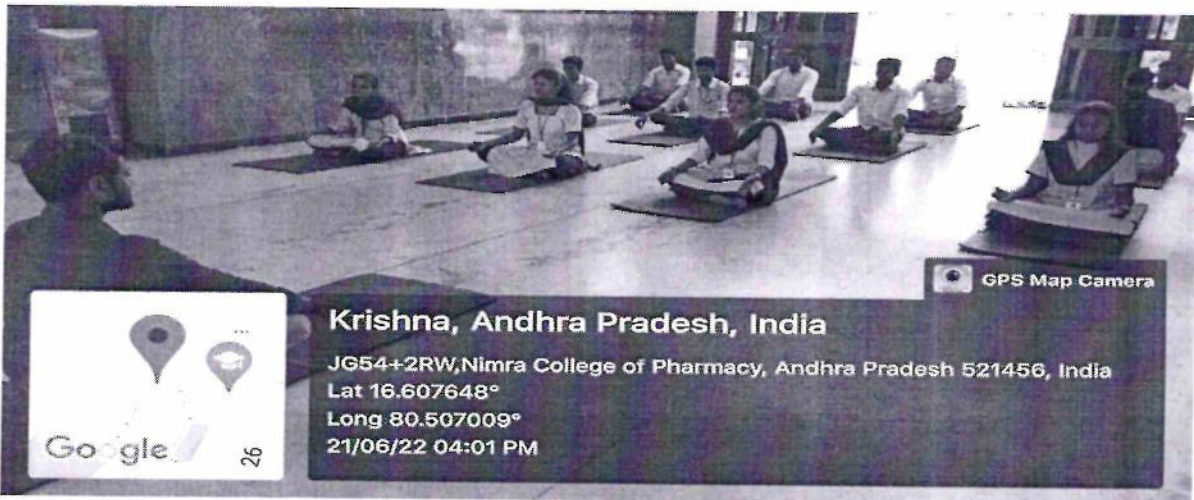

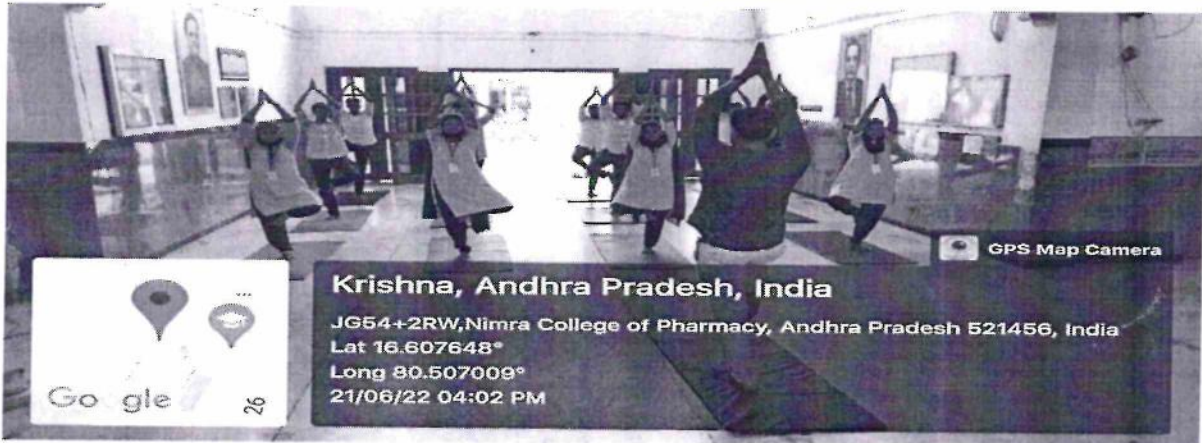

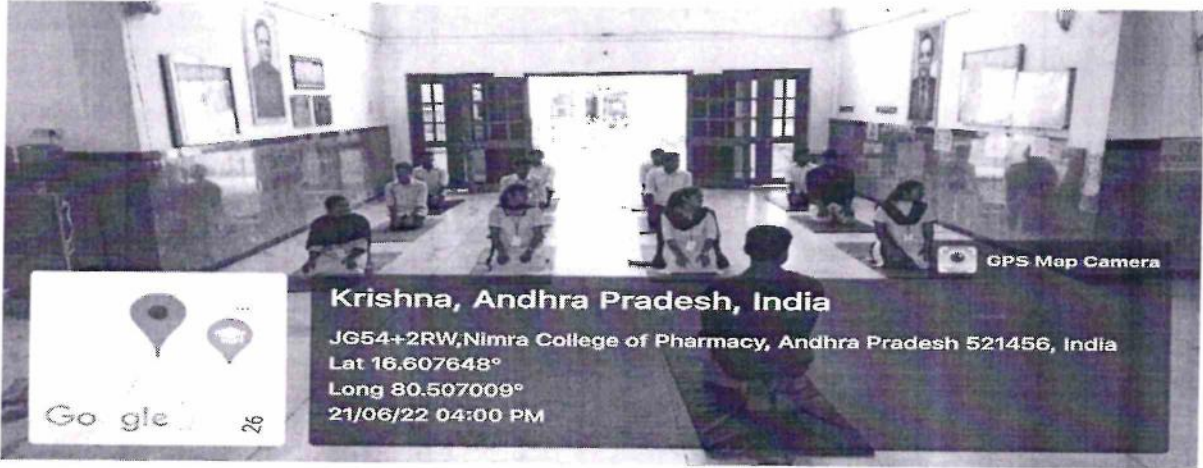

A yoga therapist can work with patients and put together individualized plans that work together with their medical and surgical therapies. That way, yoga can support the healing process and help the person experience symptoms with more centeredness and less distress.

Mainly yoga helps for students to reduce stress. Our principal sir appreciated students those who participated in yoga day. And prize was distributed to the students and the event was concluded by staff & students' speeches and some students also did “yoga poses” and our institution conducted/celebrated yoga day event

REPORT

Date: 30.01.2021

Name of the Event: TRAINING PROGRAM OF KARATE FOR GIRLS

Type of the Event: MARTIAL ARTS TRAINING

Date of the Event: 25.01.2021

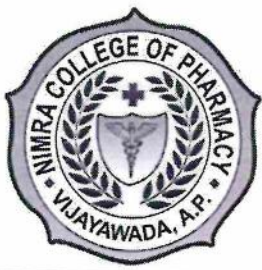

Description:

The institution conducts **Training program of KARATE for Girls** on 25.01.2021 by **P. Jameer Khan- Chief Instructor for NEW MONGS KUNG-FU ORGANISATION OF INDIA .**

Description of the Event :

The Program started with a welcome note by Mrs. T. RESHMA ,Coordinator of NCP Women's forum. She introduced Mr. K. RAJU to the gathering. He started his session with the introduction of Importance of martial arts for personal defence for girl students. He gave the pros and cons of learning karate for girls. Karate is a sport that builds strength, speed, stamina, and endurance in girls, keeping them physically fit, establishes a positive personal image and further promotes confidence in life in general.

Karate is a martial art that was originally created in Japan. The main idea of karate is battling and defending by using defensive and counter offensive body movements including punches and kicks. The psychological and ethical characteristics of karate aim to advance and improve the student in general. The term "karate" is a mixture of two Chinese characters: "kara" (empty) and "te" (hand), thus karate means empty hand. The suffix "-do" is added to the word "karate" to indicate that karate as an overall way of life. An individual who practices karate is sometimes referred to as a karateka. The conventional karate-do is a difficult sport and it takes time and dedication to become a master in this martial art.

REPORT

Date: 09.09.2020

Name of the Event: GENERIC MEDICINE

Type of the Event: Seminar Activity

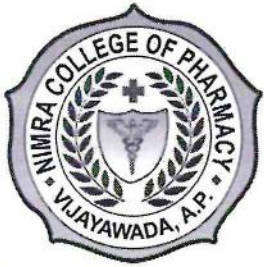

Date of the Event:

Description:

The institution conducted **SEMINAR about GENERIC MEDICINE** on **7th September 2020**. A Generic medicine is a medication created to be the same as an already marketed brand name drug in doses form, safety, strength, route of administration, quality, performance characteristic and intended use .It is a pharmaceutical medicine that contains the same chemical substance as a drug that was originally protected by chemical patent.

Generic drugs can be much cheaper than be brand name drug because they create competition in the market place and generic companies do not need to account for as high development cost. Teva is a global pharmaceutical company which is specialized in generic medicine. Teva is the world's leading generic drug producer. All the students of B. Pharmacy and Pharma D gathered for the seminar.

Later Dr.K Ravi Kiran Sir spoke few words about the generic medicine .Lastly it was concluded by the proposal of thanks by the coordinator and staff.

REPORT

Date: 30.11.2019

Name of the Event: ANTIDOTES AND THE CLINICAL APPLICATIONS

Type of the Event: Seminar Activity

Date of the Event: 28th November 2019

Description:

The institution conducted **SEMINAR about ANTIDOTES AND THE CLINICAL APPLICATIONS** on **28th November 2019**. The event was marked with students along with staff involved in the event. The day began with the principal **Dr.M.Janarthan** introduced **Mr. Sk. John Basha** to start the presentation for the participants.

He provided us exciting information about “**ANTIDOTES AND THE CLINICAL APPLICATIONS**”. He also gave Information about the topic Like Mechanism of Actions, Adjuvant antidotes, Obsolete Antidotes, Role of Antidote in Poisoning and Universal Antidote.

Antidotes are agents that negate the effect of a poison or toxin. Antidotes mediate its effect either by preventing the absorption of the toxin, by binding and neutralizing the poison, antagonizing its end-organ effect, or by inhibition of conversion of the toxin to more toxic metabolites. Antidote administration may not only result in the reduction of free or active toxin level, but also in the mitigation of end-organ effects of the toxin by mechanisms that include competitive inhibition, receptor blockade or direct antagonism of the toxin.

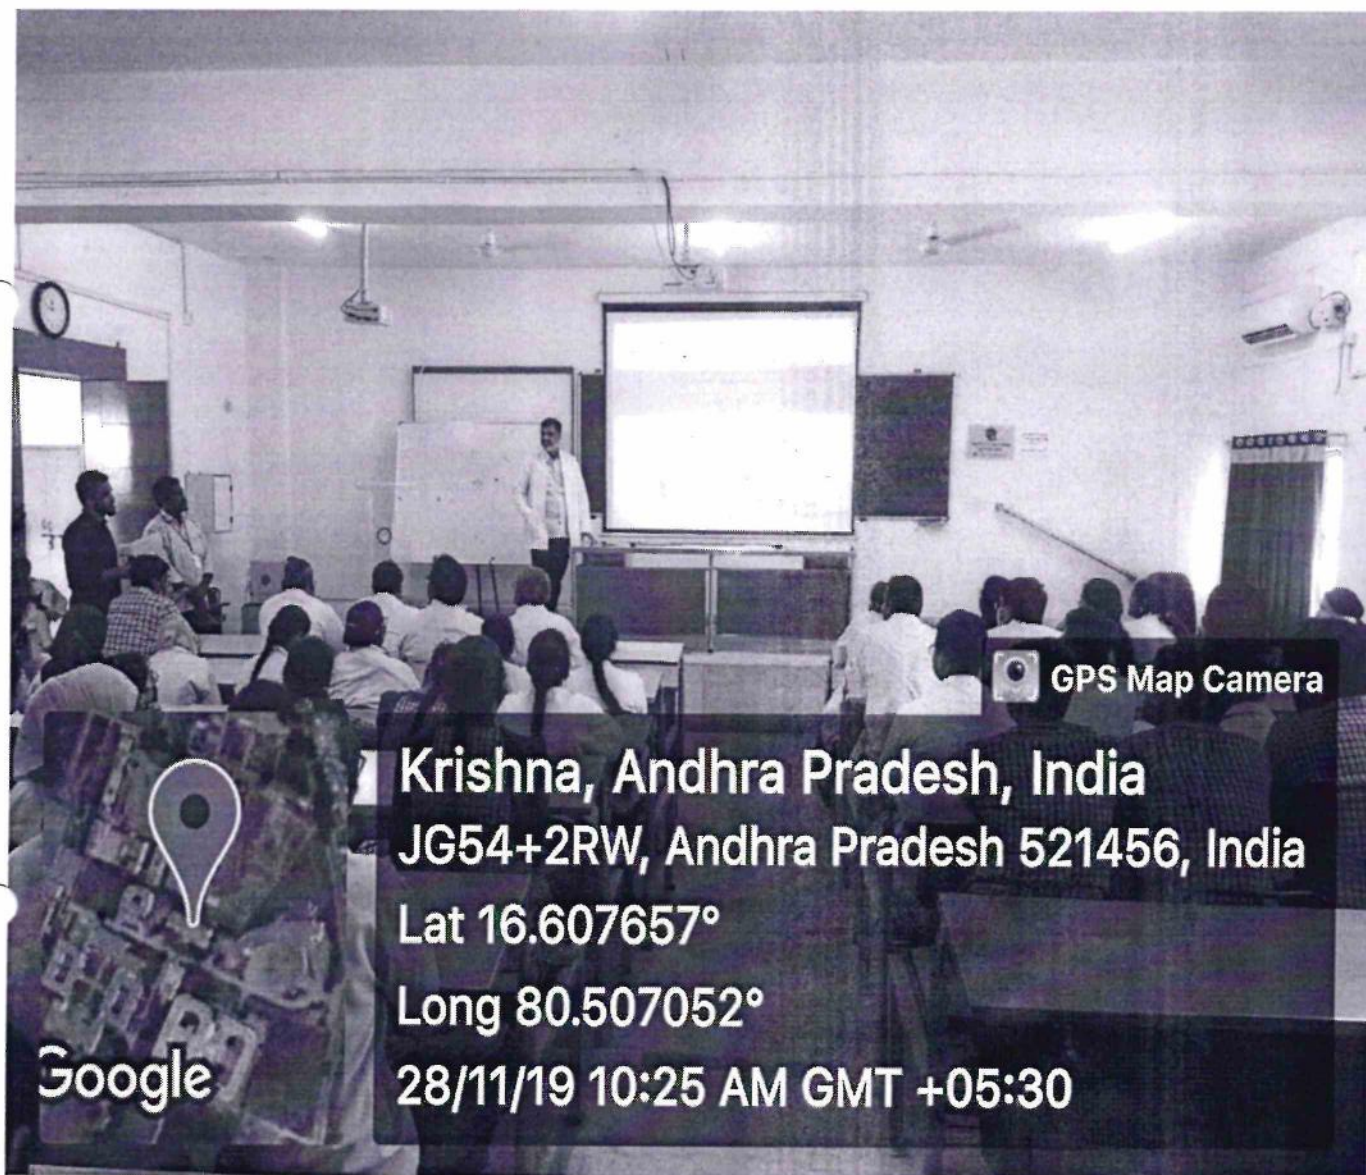

Later Mr. Sk. John Basha Sir spoke few words about the Antidotes And the Clinical Applications. Lastly it was concluded by the proposal of thanks by the coordinator and staff.

REPORT

Date: 16.08.2019

Name of the Event: KUNG FU DAY

Type of the Event: CHINESE MARTIAL ARTS

Date of the Event: 13-08-2019

Description:

Kungfu refers to any skill that is acquired through learning/practice.

It is one of the “Chinese-Martial arts” Kungfu is a group of multiple fighting styles that have developed over the centuries in “Greater-China”

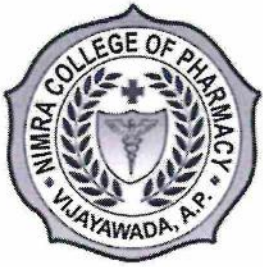

Our institution conducted Kungfu on **13-08-2019** by **P. Jameer Khan- Chief Instructor for NEW MONGS KUNG-FU ORGANISATION OF INDIA.**

Actually, it is an art that aims to improve one’s physicality, mind, character & spirit.

The main purpose to conduct this event is to develop basic knowledge, foundation & discipline. Kung Fu helps the students to increase stamina, energy, cardiovascular endurance, strength, balance improving, speed & improving coordination.

Kungfu helps us to find our inner self. And Kung Fu is good for self-defence Our principal sir appreciated to the students and the event was conclude by staff & students’ speeches.

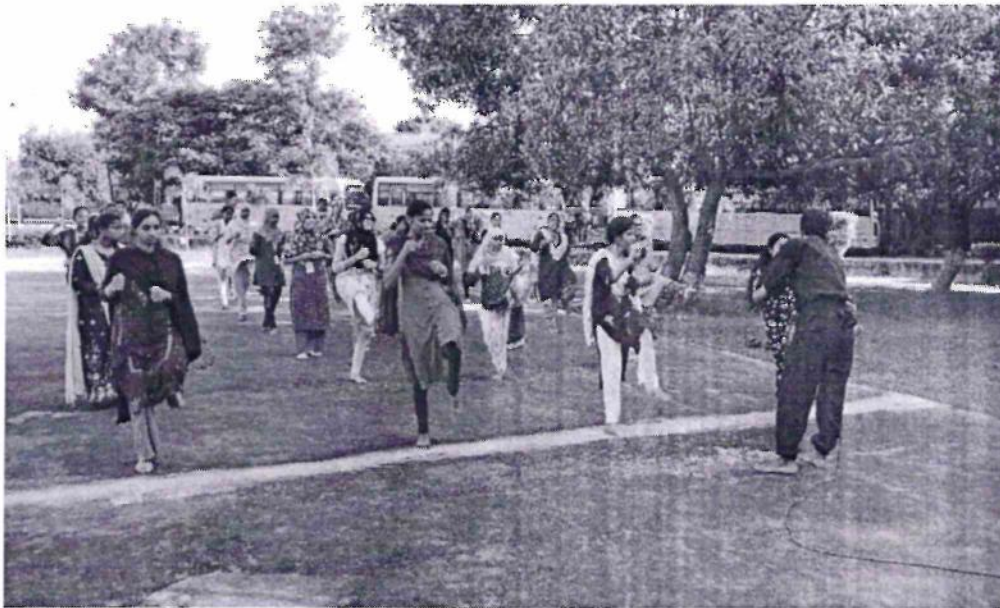

it is actually very simple to live a healthy life. Just learn kung fu for a few months, and once you get into a solid routine, you will begin to see amazing results. Kung fu helps you manage your stress (hormonal and adrenaline) levels and keeps you fit, you will also often find that excess fat begins to melt as you build lean-but-functional muscle mass. And some students also did some kung Fu-styles (or) kung Fu poses. And our institution conducted/celebrated KUNG-FU event successfully

REPORT

Date: 17.10.2018

Name of the Event: WARD ROUND PARTICIPATION

Type of the Event: Seminar Activity

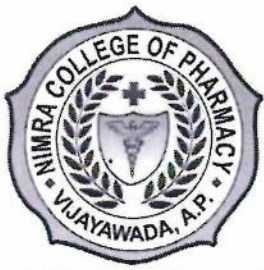

Date of the Event: 15th October 2018

Description:

The institution conducted **SEMINAR about WARD ROUND PARTICIPATION** on **15th October 2018**. A ward round is a visit made by a medical practitioner alone or with a team of health care professionals and medical students to hospital in patients at there besides to review and follow up the progress in their health.

The purpose of the ward round is to obtain information and plan medical and nursing care through staff – patient communication. The aim and objective of this study was to investigate patients experience during the ward round and their ability to participate in their care. On that day all the students gathered in the seminar hall.

At last Dr. P. Adi lakshmi mam spoke about this seminar. The seminar was concluded by speeches by staff and participants for making this seminar successful the students dispersed after seminar

REPORT

Date: 26.06.2018

Name of the Event: MEDITATION PROGRAMME

Type of the Event: HEALTH AND PEACE PROGRAMME

Date of the Event: 21.06.2018

Description:

The institution conducts **MEDITATION PROGRAMME** on **21.06.2018** by **P. Sathar Khan - NIMS Physical Director.**

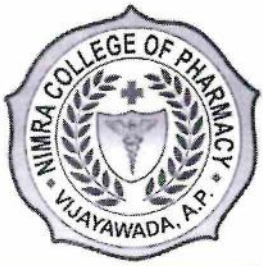

Description of the Event :

Yoga helps them to deal with their stress and bring back some peace of mind. Those who regularly practice yoga not only report lower levels of stress and anxiety and subsequently improved academic performance.

Yoga Day is celebrated among the youth and children to make them understand the importance of Yoga in their life. It helps the students understand how to maintain harmony between body and mind.

Our Principal explained the importance of breath in meditation. He told the students they should read ancient Indian texts like Patanjali Maharishi's 'AshtangYog' along with personality development books by International writers. He encouraged the students to practice Yoga and meditation on a regular basis for a healthy body and mind.

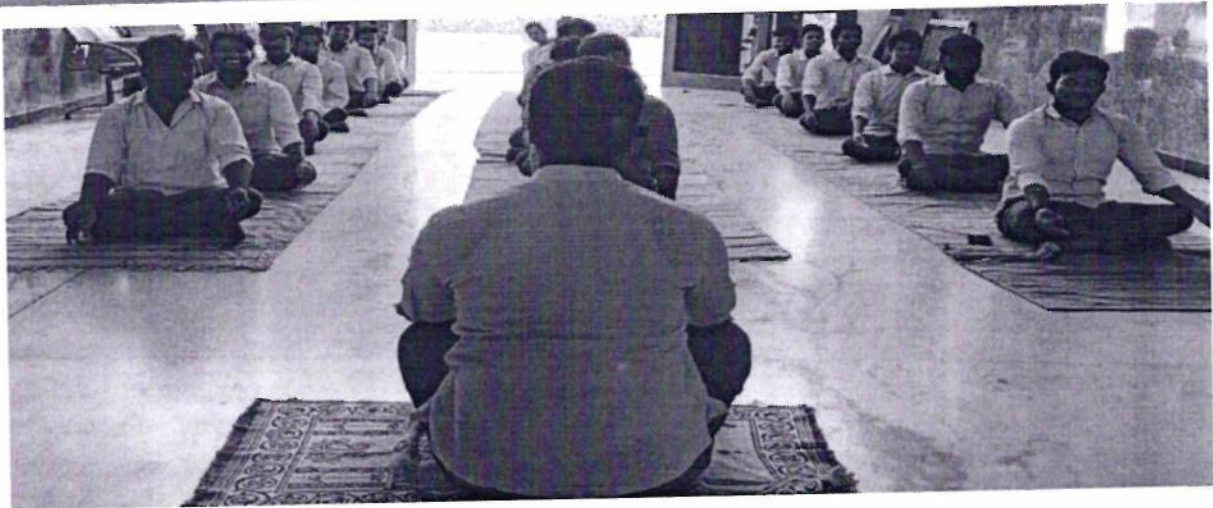

The practical session began with an introduction to Yoga and its awareness. The Yoga Trainer practically demonstrated various 'asana' like Balasana, Setu Bandha sarvangasana, sukhasana, Utkatasana, Suryanamaskar, Manjarasan, Kapal Bhaati, etc and highlighted their benefits to human life. Thus, the session was useful and beneficial to all the participants. It was ended with vote of thanks for all the Professors and office staff who put in a lot of effort to make the function a success.

Date of the Event: 13th SEPTEMBER 2017

Description:

The institution conducted **SEMINAR about ADVERSE DRUG REACTION MANAGEMENT** on **13th SEPTEMBER 2017**. ADVERSE DRUG REACTION MANAGEMENT is used to understand patient views about medication therapy. To educate about the benefits of treatment. Inform patients about potential ADRs and management strategies should any occur. Ensure an updated and accurate medication list. Utilize decision support software to help prevent ADRs. Start with low doses and frequencies and slowly titrate as tolerated. Initiate less-potent agents, agents with direct mechanisms of action, or alternatives with lower adverse event incidence. Avoid or reduce the use of interacting medications. Prescribe dosage forms with minimal systemic exposure (e.g. creams, patches).

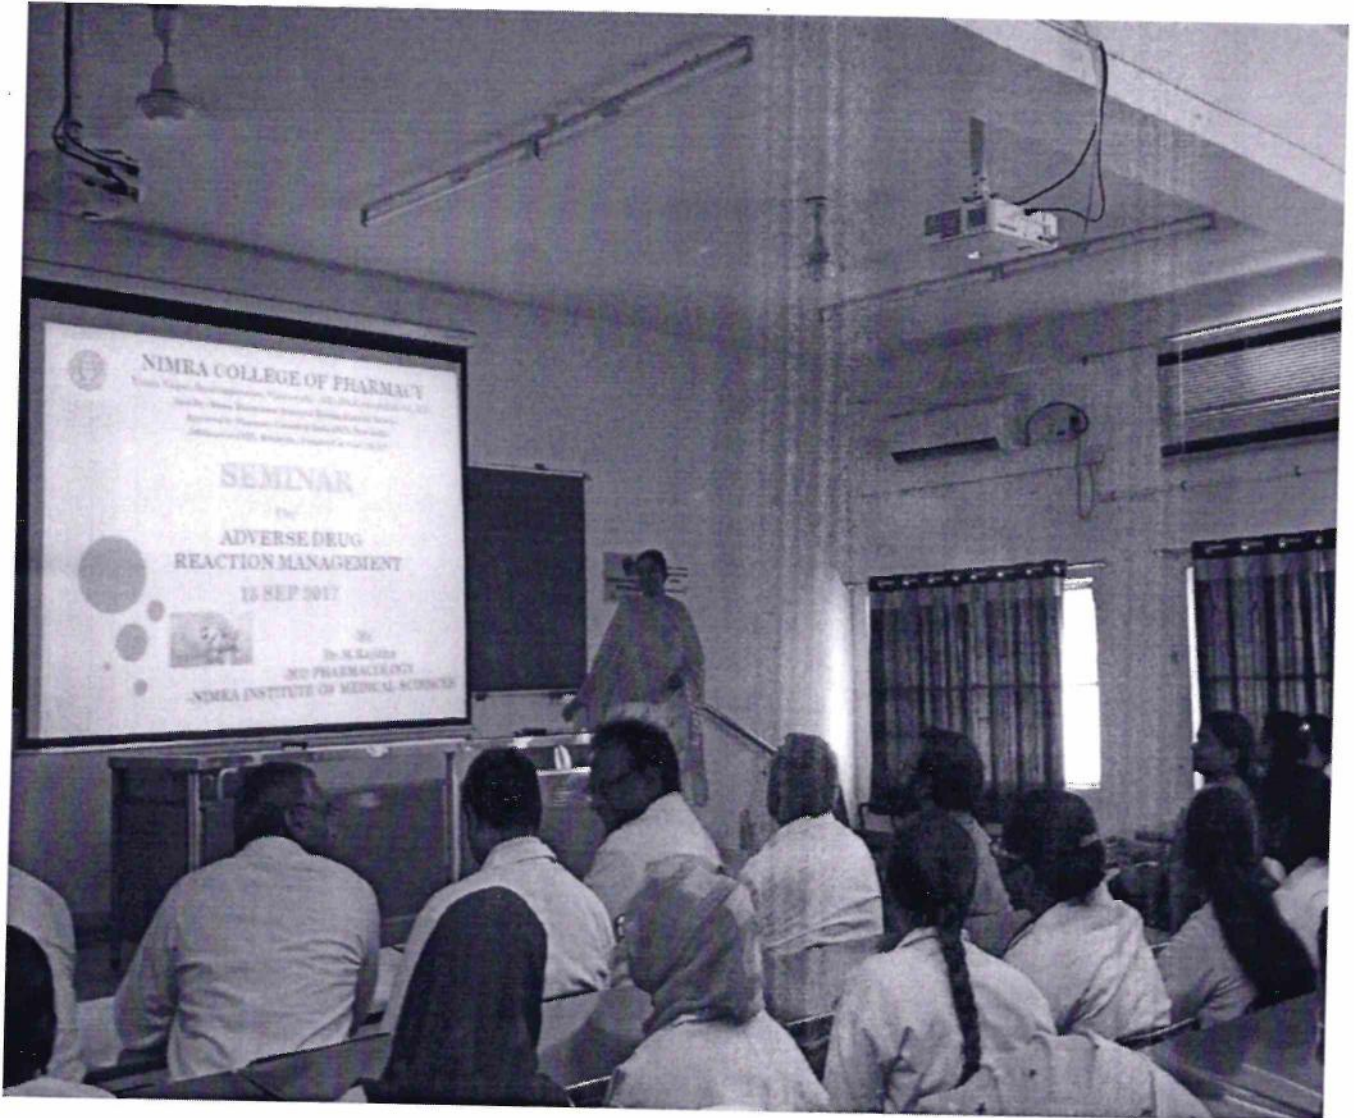

At last Dr.M.Rajitha madam spoke about this seminar. The seminar was concluded by speeches by staff and participants for making this seminar successful the students dispersed after seminar

REPORT

Date: 05.06.2017

Name of the Event: PROTEIN CALORIE MALNUTRITION

Type of the Event: Seminar Activity

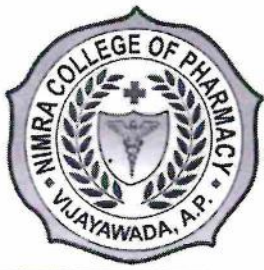

Date of the Event: 2nd June 2017

Description:

The institution conducted **SEMINAR about PROTEIN CALORIE MALNUTRITION** on **2nd June 2017**. Protein Calorie Malnutrition refers to a nutritional status in which reduced availability of nutrients leads to changes in body composition and function cancer patients often experience weight loss caused by protein calorie malnutrition (PCM), during the course of the disease or treatment PCM occurs as marasmus (Characterised by growth failure and wasting and as kwashiorkor (protein Deficiency), characterised by tissue oedema and damage.

PCM increases the risk of death from pneumonia, chicken pox or measles. Both Kwashiorkor and marasmus are common in infancy and Childhood when dietary amino acids content is insufficient to satisfy growth requirements. Later Dr.G.B. Simpson Sir Detailly explained about Protein calorie malnutrition.

Lastly Students asked there doubts and teacher gave some speeches and concluded the seminar by proposal of thanks by the coordinator and the Principal.

REPORT

Date: 03.07.2017

Name of the Event:DEVELOPING ON LIFE SKILL

Type of the Event:COMMUNICATIONPROGRAM

Date of the Event:27-06-2017 to 29-06-2017

Description:

The Institution celebrated **DEVELOPING ON LIFE SKILL** from **27-06-2017** to **29-06-2017** by **Sk. Nayab Rasool**.

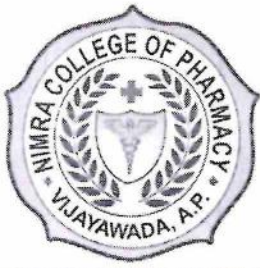

Life skills are defined as “a group of psychosocial competencies and interpersonal skills that help people make informed decisions, solve problems, think critically and creatively, communicate effectively, build healthy relationships, empathize with others, and cope with and manage their lives in a healthy and productive manner. Life skills may be directed toward personal actions or actions toward others, as well as toward actions to change the surrounding environment to make it conducive to health.” according to World Health Organization (WHO). Bearing the WHO definition in mind, the Basic Life Skills curriculum offers youth the emotional, social and intellectual tools needed to achieve success in life – on a personal level, an interpersonal level, and within their community and work places.

It was developed by UNICEF in close collaboration with the Ministry of Youth and Sport of Azerbaijan to provide youth with new knowledge and the opportunity to apply novel skills in a safe environment for the successful transitioning to the adulthood.

Learning Outcomes :

At the end of the programme learners will be able to:

1. Gain Self Competency and Confidence
2. Practice Emotional Competency
3. Gain Intellectual Competency
