## PROGRAM REPORT

Name of the programme : A one week FDP on IN-VITRO CELL LINE TECHNIQUES FOR DRUG DISCOVERY & DEVELOPMENT

Organized by : Department of Pharmacy

Date : 17-06-2019 to 22-06-2019

Resource persons : 1. G.Nagamani  
Associate Professor, Dept of pharmacology  
Talla padmavathi college,  
Cell no: 8309589531  
E-mail: [nagamani.garre@gmail.com](mailto:nagamani.garre@gmail.com)

2. Dr.A.Narendra Babu  
Dept of Pharmacology, Professor  
Chalapathi institute of pharmaceutical sciences, Guntur  
Cell no: 9849010007  
E-mail: [narendraankem@rediffmail.com](mailto:narendraankem@rediffmail.com)

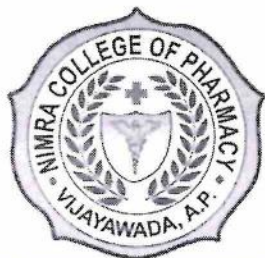

3. N.Srinivas  
Associate Professor, Dept of Pharmacology  
AKRG college of pharmcy, Nallajerla  
Cell no: 8019189741  
E-mail: [srnvs87akshi@gmail.com](mailto:srnvs87akshi@gmail.com)

4. Dr.S.Mohanraj  
Profesor, Dept of pharmacology  
SSM college of pharmacy, Erode  
Cell no: 9994709756  
E-mail: [ksmohanraj08@gmail.com](mailto:ksmohanraj08@gmail.com)

5. Dr.M.Janarthan  
Professor, Dept of pharmacology  
Nimra college of pharmacy, Ibrahimpatnam  
Cell no: 9989040302  
E-mail: [principalncp@yahoo.in](mailto:principalncp@yahoo.in)

### Objective of FDP

- To generate pharmacogenomic hypotheses that might help us to identify novel mechanisms associated variation in drug response.
- To conduct experiments on micro organisms & cells outside of their normal biological environment.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)  
Approved by AICTE, Pharmacy Council of India (PCI), New Delhi.  
Affiliated to JNTU, Kakinada, Permitted by Govt. of A.P.  
E-mail : principalncp@yahoo.in Website : www.nimra.in

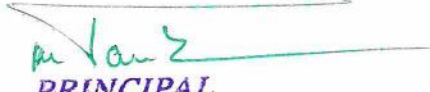

## Outcome of FDP

- To identify novel mechanisms associated with variation in drug response.
- To play a dual role from drug discovery to pre clinical development.
- To get in depth understanding reaserch and its implications .

Conclusion : A one week FDP concluded on 22-06-2019 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra pradesh.

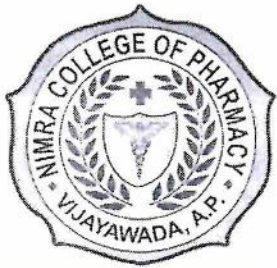

Total no of participants: 25

## IN-VITRO CELL LINE TECHNIQUES FOR DRUG DISCOVERY & DEVELOPMENT

### Dates:

17-06-2019 to 22-06-2019

### Organized By:

Department of Pharmacology

### Venue:

Seminar Hall

**NIMRA COLLEGE OF PHARMACY**

**Nimra Nagar, Jupudi,  
Ibrahimpattanam-521456.**

## About the topic

**Cell viability assays:** Cell viability assays are used to determine the effects of drugs on the viability of cells. These assays can be used to screen large numbers of compounds to identify potential drug candidates.

**High-throughput screening (HTS):** HTS is a technique used to rapidly screen large numbers of compounds for activity against a specific target. This technique can be used to identify potential drug candidates and optimize their properties.

**Reporter gene assays:** Reporter gene assays are used to study the effects of drugs on specific genes. These assays involve the use of genetically engineered cells that express a reporter gene in response to the activation of a specific pathway or gene.

**Enzyme assays:** Enzyme assays are used to study the effects of drugs on specific enzymes. These assays can be used to identify inhibitors or activators of enzymes that are involved in disease pathways.

**Transfection techniques:** Transfection techniques are used to introduce foreign DNA or RNA into cells for the purpose of studying gene expression or protein function. These techniques can be used to study the effects of drugs on specific genes or pathways.

### Objective of FDP

- To minimize drug degradation & loss, & increase drug bioavailability.
- To improve the ability to deliver drugs that are poorly water soluble.
- To reduce enzyme degradation, there by improve the safety & effectiveness of drugs.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)  
Approved by AICTE, Pharmacy Council of India (PCI), New Delhi.  
Affiliated to JNTU, Kakinada, Permitted by Govt. of A.P.

---

## Outcome of FDP

- To bring significant advances in the diagnosis, treatment and prevention of disease.
- Leads to the emergence of a new field called nano medicine.
- Improves the manufacturing methods.

Conclusion : A one week FDP concluded on 23-11-2019 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra pradesh.

Total no of participants: 27

## About the Topic

The development of advanced nano formulations is an important area of research in the pharmaceutical industry, as it has the potential to revolutionize drug delivery and improve patient outcomes. Here are some key steps involved in the development of advanced nano formulations

**Design and selection of the appropriate nano carrier system:** The first step in developing a nano formulation is to choose the appropriate nano carrier system based on the physicochemical properties of the drug and the intended route of administration. Some commonly used nano carrier systems include liposomes, polymeric nanoparticles, solid lipid nanoparticles, and dendrimers.

**Formulation optimization:** The nano formulation should be optimized to achieve the desired properties such as particle size, surface charge, drug loading, and release profile. Various formulation parameters such as the type and concentration of surfactants, co-solvents, and stabilizers, and the method of preparation should be optimized to achieve the desired formulation characteristics.

**In vitro and in vivo characterization:** The developed nano formulation should be characterized for its physicochemical properties such as particle size, surface charge, drug loading, and release profile. In vitro studies such as release kinetics, stability, and cytotoxicity studies should be performed to evaluate the efficacy and safety of the formulation. In vivo studies such as pharmacokinetic and biodistribution studies should be performed to evaluate the pharmacological and toxicological profile of the formulation.

### Objective of FDP

- A little care and adherence to prescribed safety guidelines will help avoid laboratory mishaps
- These skills play a significant role in order to perform various experiments and to run various tests.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)  
Approved by AICTE, Pharmacy Council of India (PCI), New Delhi.  
Affiliated to JNTU, Kakinada, Permitted by Govt. of A.P.  
E-mail : principalncp@yahoo.in Website : www.nimra.in

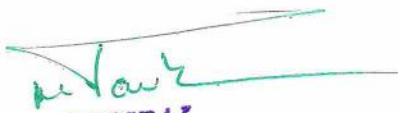

## Outcome of FDP

- Important for evaluating the effect of an treatment .
- Focusses on research procedures.
- Faculty requires these approaches who are capable of embracing these changes .

Conclusion : A one week FDP concluded on 25-01-2020 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra pradesh.

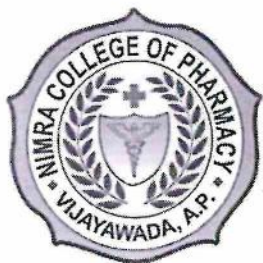

Total no of participants: 25

**RECENT TRENDS IN  
BIOMEDICAL &  
CLINICAL RESEARCH**

**Dates:**

**20-01-2020 to 25-01-2020**

**Organized By:**

**Department of Pharmacy Practice**

**Venue:**

**Seminar Hall**

**NIMRA COLLEGE OF PHARMACY**

**Nimra Nagar, Jupudi,  
Ibrahimpattanam-521456.**

**About the Topic**

**Immunotherapy:** This is a form of cancer treatment that harnesses the power of the immune system to fight cancer cells.

**Artificial Intelligence (AI):** AI is being used in various ways in biomedical research, from drug discovery to clinical decision-making.

**Gene Editing:** Techniques such as CRISPR-Cas9 have revolutionized the ability to manipulate DNA and hold great potential for treating genetic diseases.

**Wearable Technology:** Devices such as smartwatches and fitness trackers are being used to collect health data in real-time, which can help with disease management and prevention.

**Digital Health:** The use of digital tools such as telemedicine, mobile health apps, and electronic health records is transforming the way healthcare is delivered.

**Regenerative Medicine:** This field focuses on repairing or replacing damaged tissues and organs using stem cells or other advanced therapies.

### Objective of FDP

- Working safely with hazardous chemicals requires proper use of laboratory equipment
- Proper calibration can also improve lab safety.
- To carry out the maintenance by the qualified technicians.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)  
Approved by AICTE, Pharmacy Council of India (PCI), New Delhi.  
Affiliated to JNTU, Kakinada, Permitted by Govt. of A.P.  
E-mail : principalncp@yahoo.in Website : www.nimra.in

---

## Outcome of FDP

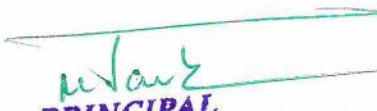

- They will acquire knowledge about maintenance and safety.
- Helps to prevent or eliminate the hazards
- These techniques are vital for most of the experiments.

**Conclusion :** A one week non-teaching training programme concluded on 24-08-2019 with plenty of learning & experience for the participants.
