## Objective on FDP

- To provide a scientific reporting for the medical plants used for particular therapeutic purpose.
- To identify drugs to alleviate human illness by thorough analysis of plants to be useful in human cultures throughout the world
- To play a diverse role in the discovery, characterisation, production & standardization of these drugs.

## Outcome of FDP

- Not only to improve education but also to empower people, strengthen governance.
- To upgrade the knowledge and skills of the participants.
- To gain better understanding on how to design a valid research project.

Conclusion : A one week FDP concluded on 22-09-2018 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra Pradesh.

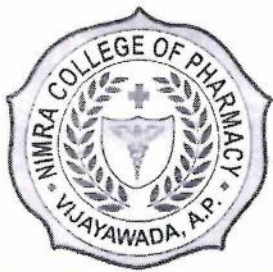

Total no of participants: 27

## INNOVATIVE TRENDS IN PHARMACOGNOSY & ETHANOPHARMACOLOGY

**Dates:**

**17-09-2018 to 22-09-2018**

**Organized By:**

**Department of Pharmacognosy**

**Venue:**

**Seminar Hall**

**NIMRA COLLEGE OF PHARMACY**

**Nimra Nagar, Jupudi,  
Ibrahimpattanam-521456.**

### ABOUT THE TOPIC

Pharmacognosy is the study of natural products, including plants, animals, and microorganisms, and their potential applications in medicine. Ethnopharmacology is a branch of pharmacology that focuses on the use of traditional medicines and remedies by indigenous cultures. Here are some innovative trends in pharmacognosy and ethnopharmacology Identification of new natural products: Advances in extraction and isolation techniques have led to the discovery of new natural products with potential medicinal properties. For example, researchers are using genomic and metabolomic approaches to identify novel bioactive compounds from plant and animal sources. Development of standardized herbal medicines: Standardization of herbal medicines involves the identification and quantification of active compounds, as well as quality control measures to ensure consistency in product potency and purity.

## Objective on FDP

- To transform the global health by empowering patients & other health care providers through counselling, drug information & motivation for rational use of medicines
- Disease specific oriented efforts.
- To bring innovative approaches like precision medicines & patient centered care models .

## Outcome of FDP

- To develop pharmaceutical care models .
- Recognising pharmacist as part of the public health work force.
- To incorporate global public health principles in pharmacy educations.

Conclusion : A one week FDP concluded on 24-11-2018 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra pradesh.

## TRANSFORMING GLOBAL HEALTH- ROLE OF PHARMACISTS

### Dates:

19-11-2018 to 24-11-2018

### Organized By:

Department of Pharmacy practice

### Venue:

Seminar Hall

NIMRA COLLEGE OF PHARMACY

Nimra Nagar, Jupudi,  
Ibrahimpattanam-521456.

### About the topic

Expanded scope of practice: Pharmacists are increasingly being recognized as healthcare providers with the training and expertise to provide a wide range of clinical services. This includes medication management, health promotion and disease prevention, immunizations, and management of chronic conditions. Patient-centered care: Pharmacists are uniquely positioned to provide patient-centered care, working with patients to develop individualized care plans that take into account their health needs, preferences, and goals.

## PROGRAM REPORT

Name of the programme : A one week FDP on QUALITY BY DESIGN [QBD] IN DRUG DEVELOPMENT & CLINICAL RESEARCH

Organized by : Department of Pharmacy

Date : 04-02-2019 to 09-02-2019

Resource persons : 1. Dr.P.Veeresh Babu  
Professor, Dept of Pharmacology  
Gokaraju Rangaraju college of pharmacy, HYD  
Cell no: 9493530528  
E-mail: [pratap.veeresh@gmail.com](mailto:pratap.veeresh@gmail.com)

2. Ch.Nagabhushanam  
Assistant Professor, Dept of pharmacology  
KVSR Siddhartha college of pharmaceutical sciences, Vij  
Cell no: 9951067030  
E-mail: [chnb137@gmail.com](mailto:chnb137@gmail.com)

3. Dr. Asif Rasheed  
Professor & HOD, Dept of pharmacology  
Deccan school of pharmacy, HYD  
Cell no: 9030367350  
E-mail: [asifrasheed707@gmail.com](mailto:asifrasheed707@gmail.com)

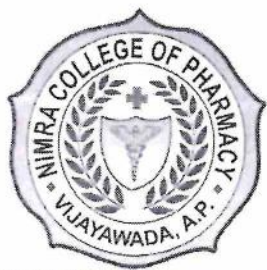

4. Dr.S.Mohanraj  
Profesor, Dept of pharmacology  
SSM college of pharmacy, Erode  
Cell no: 9994709756  
E-mail: [ksmohanraj08@gmail.com](mailto:ksmohanraj08@gmail.com)

5. Dr.M.Janarthan  
Professor, Dept of pharmacology  
Nimra college of pharmacy, Ibrahimpatnam  
Cell no: 9989040302  
E-mail: [principalncp@yahoo.in](mailto:principalncp@yahoo.in)

### Objective on FDP

- To increase process capability & reduce product variability & defects by QBD applied to R&D to drive better results throughout the drug development process enhancing product & process design.
- The main aim of QBD in pharmaceutical development is to provide safety, efficacy of the product.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)  
Approved by AICTE, Pharmacy Council of India (PCI), New Delhi.  
Affiliated to JNTU, Kakinada, Permitted by Govt. of A.P.  
E-mail : principalncp@yahoo.in Website : www.nimra.in

## Outcome of FDP

- To improve quality by using analytical methodologies for the designe.
- To understand the changes in the product and process can be managed better with QbD.

Conclusion : A one week FDP concluded on 09-02-2019 with plenty of learning & experience for the participants who were faculties from different institutions across the Andhra pradesh.

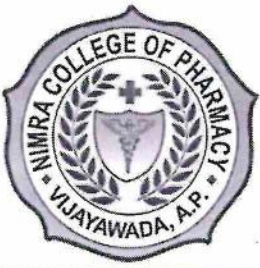

Total no of participants: 26

## ABOUT THE TOPIC

Quality by Design (QbD) is a systematic approach to drug development and clinical research that emphasizes the importance of understanding and controlling product quality through the entire product lifecycle. Here are some of the key principles of QbD

Designing for quality: QbD emphasizes the importance of designing products and processes with quality in mind, rather than simply relying on testing to ensure quality.

Identifying critical quality attributes (CQAs): CQAs are the characteristics of a drug product that are critical to its safety, efficacy, and quality. QbD focuses on identifying and understanding these attributes and designing processes that can consistently meet them.

### Objective of FDP

- To provide controlled release of therapeutic agents in constant doses over long periods
- To enable the drug to be delivered to the right place, at the right time & in the right amount.
- Polymer based drug delivery can improve drug safety, efficacy & patient compliance.

# Nimra College of Pharmacy

Estd By : Nimra Educational Society (A Muslim Minority Society)

# ADVANCES IN POLYMER BASED DRUG DELIVERY SYSTEM

**Dates:**

08-04-2019 to 13-04-2019

**Organized By:**

NIMRA COLLEGE OF PHARMACY

Department of Pharmaceutics

**Venue:**

Seminar Hall

Nimra Nagar, Jupudi,

Ibrahimpattanam 521456.

## About the Topic

Polymer-based drug delivery systems have emerged as an efficient way to deliver drugs to targeted sites with reduced toxicity and enhanced therapeutic efficacy. Here are some of the recent advances in polymer drug delivery systems

**Stimuli-responsive polymers:** These are polymers that respond to external stimuli, such as temperature, pH, light, or magnetic fields, and release drugs in a controlled manner. For example, temperature-responsive polymers can release drugs at a specific temperature, which can be used to target tumors, as they typically have higher temperatures than healthy tissues.

**Nanoparticle-based drug delivery systems:** Polymer nanoparticles can encapsulate drugs and protect them from degradation in the body. They can also be engineered to selectively target specific cells or tissues, such as cancer cells, and release drugs at the site of the tumor. Advances in nanotechnology have allowed for the development of more sophisticated nanoparticle-based drug delivery systems with enhanced targeting and therapeutic efficacy.

**Biodegradable polymers:** Biodegradable polymers can degrade in the body and eliminate the need for surgical removal of drug delivery systems after treatment. These polymers can be engineered to degrade at different rates, allowing for sustained drug release over a longer period of time.

## PROGRAM REPORT

Name of the programme : A one week non teaching training program on A LABORATORY SAFETY & WASTE DISPOSAL PRACTICE OF TEACHING LAB TECHNICIANS

Organized by : Department of Pharmacy

Date : 18-06-2018 to 23-06-2018

Resource persons : 1. Sk.Abdul Saleem  
Assosiate professor, Dept of Pharmacology  
Narsaraopeta institute of pharmaceutical sciences, Narsaraopeta  
Cell no: 9959545424  
E-mail: [saleem.pci@gmail.com](mailto:saleem.pci@gmail.com)

2. K.Srikanth  
Associate Professor, Dept of pharmaceutical chemistry  
V.V. institute of pharmaceutical sciences  
Cell no: 9494682732  
E-mail: [karumanchi002@gmail.com](mailto:karumanchi002@gmail.com)

3. L.Mohan Krishna  
Dept of pharmaceutics  
Vikas group of institutions, Nunna  
Cell no: 7995427798  
E-mail : [mohanlokireddy@gmail.com](mailto:mohanlokireddy@gmail.com)

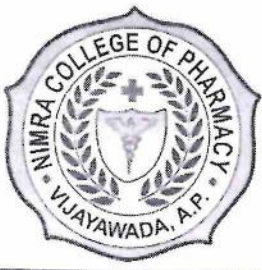

4. Dr.B.Siva Sai Kiran  
Professor, Dept of pharmaceutical analysis  
Oil technological & pharmaceutical research inst, Anantapur  
Cell no: 9700572717  
E-mail: [sivasaikiran143@gmail.com](mailto:sivasaikiran143@gmail.com)

5. K.Yamini  
Assosiate professor, Dept of Pharmacognosy & phytochemistry  
TRR college of pharmacy, HYD  
Cell no: 9703649067  
E-mail: [yaminik.yk@gmail.com](mailto:yaminik.yk@gmail.com)

### Objective of FDP

- A little care and adherence to prescribed safety guidelines will help avoid laboratory mishaps.
- These skills play a significant role in order to perform various experiments and to run various tests.

E-mail : principalncp@yahoo.in Website : www.nimra.in

## Outcome of FDP

- They will acquire knowledge about maintenance and safety.
- Helps to prevent or eliminate the hazards
- These techniques are vital for most of the experiments.

Conclusion : A one week non teaching training program concluded on 23-06-2018 with plenty of learning & experience for the participants.

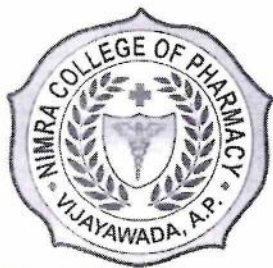

Total no of participants: 10
